Guidance for Reviewing Individual Subcontract Report (ISR)

Reviewing ISRs

- Dollars represent all subcontracting from inception of contract to reporting date
- May show negative \$
- ISR contains data fields, some input by contractor; others “pulled” from sources outside contractor’s control
- The awarding contracting office (not administering contracting office) has the responsibility to acknowledge receipt of or reject the prime

Reviewing ISRs

- Contracting officials registered at the contracting office level will see all ISRs for that office; if registered at the agency level, then contracting officials will see all ISRs for the agency
- When rejecting an ISR, always provide explanation and clear guidance so contractor knows what to do

Reviewing ISRs

- When rejecting a previously accepted ISR, consider informing the person who accepted the report that you are rejecting the report and your reason (so as to ensure reporting accuracy across DoD)
- Contractor can make changes or corrections to previously submitted reports when reviewer either “Reopens” or “Rejects” the report

Reviewing ISRs

- Prime contractor should have no pending lower-tier ISRs
- If contractor has pending lower-tier reports, notify contractor that his lower-tier ISRs require action

NOTE: Contractor may not be aware of pending lower-tier ISRs if they were submitted to incorrect e-mail addresses; provide contractor e-mail to which lower-tier contractor submitted ISR

Reviewing ISRs

- The following slides include a “step-by-step” review of the ISR
- The sections refer to and correspond with the sections of the ISR
- Each section also includes a description of the data
- Comments provide guidance for the person reviewing the ISR
- “NAR” means No Action Required

REVIEWING SSR FOR COMMERCIAL SUBCONTRACTING PLAN

Reviewing SSRs for Commercial Subcontracting Plan

- “Total Dollars” represent all subcontracting performed in the US for entire product line or service for both Federal Government **and** non-Federal Government contracts as negotiated in the subcontract plan
- Cannot show negative \$

Reviewing SSRs for Commercial Subcontracting Plan

- Contractor must have a Government approved Commercial Subcontract Plan and at least one prime contract in effect during reporting period
- Companies who indicate they are “Subcontractors Only” cannot have a Government approved Commercial Subcontracting Plan (need one prime contract)

Reviewing SSRs for Commercial Subcontracting Plan

- If contractor has subcontracting with multiple Government agencies, the contractor must
 - Identify Federal agencies and indicate % of total dollars attributable to each
 - Identify the Federal agency's contracting organization which approved the Commercial Subcontract Plan
 - **NOTE: DCMA does not approve Commercial Subcontract Plans**

Reviewing SSRs for Commercial Subcontracting Plan

- Contracting official who approved Commercial Plan is responsible for approving SSR
- When rejecting a previously accepted SSR, consider informing the person who accepted the report that you are rejecting the report and your reason (to ensure reporting accuracy across DoD)

Reviewing SSRs for Commercial Subcontracting Plan

- When rejecting an SSR, always provide explanation and clear guidance so contractor knows what to do
- Contractor can make changes or corrections to previously submitted reports when reviewer either “Reopens” or “Rejects” the report

Reviewing SSRs for Commercial Subcontracting Plan
